

FOR THE CONSUMER

Know what you are agreeing to, before you agree to it

A mortgage, a car loan or an investment is decided in a few conversations. 4orm explains it in plain words while it happens, and leaves you holding the record.

\$0	100%	\$704M	Yours
WHAT A CONSUMER PAYS, IN EVERY SCENARIO	OF FILES IN A TARGETED FSRA REVIEW HAD NO DOCUMENTED SUITABILITY	REPORTED CANADIAN FRAUD LOSSES IN 2025	THE COPY OF THE RECORD YOU KEEP, PERMANENTLY
The five questions	The answer		
Who it is for	Anyone facing a financial decision that is hard to reverse: a mortgage, vehicle finance, an investment, a claim		
What it is	A free check explaining what you are looking at, and a readable record of what was discussed and agreed		
When and where	Before you commit, while it runs, and afterwards. Canada first, wherever a licensed professional advises you		
What it costs you	Nothing. The regulated business pays, no consumer is charged and no consumer data is sold		
Where it hurts today	The gap behind it	What 4orm changes	
You are asked to decide before you understand	The explanation happens verbally and is never written down	You get the options, the trade-offs and the missing information in plain words, before you sign	
Nobody can tell you why this product, and not another	The reasoning lives in one person's memory	The reason is captured while it is fresh, and you receive a copy of it	
Something changes and you find out late	Nobody re-checks the recommendation when your circumstances move	A change is dated against what was known before, so the two are never confused	
A dispute becomes your word against theirs	The file cannot show what was disclosed or acknowledged	There is a record of what was known, discussed, agreed and why	

Legend. A missing record is not proof anybody did anything wrong, and 4orm never says it is. It gives no financial advice: the professional keeps the recommendation, the firm the duty.

What it actually saves you.

Hours of re-explaining your situation, the cost of a product that suited the seller better than you, and the months a complaint takes when nobody can produce the file.
