

4orm Finance — Investor Financial Summary

Current management target case. Canadian dollars. October 2026.

KEY NUMBERS		
Pre-seed target	C\$2.05M	Current pre-seed capitalization plan.
Already raised	C\$80K	Reported capital raised; keep separate from verified opening cash until reconciled.
Remaining to finance	C\$1.97M	Funds the 18-month survival plan.
2031 revenue target	C\$94.7M	Management target case, not a forecast.
2031 EBITDA	C\$46.25M	Model output if revenue, gross margin and OpEx assumptions hold.
2031 gross margin	83.2%	Blended model output across platform, records, enterprise, API and services.

THE ROUND		
Instrument	Common + SAFEs	Two subscriptions for Class A common, then three Y Combinator post-money SAFEs.
Common tranche price	C\$0.40/share	C\$8.0M pre-money management financing term.
SAFE ceilings	C\$15M / C\$18M / C\$20M	Three C\$500K SAFEs, released in order against milestones.
Discount	15%	Applies if the priced seed comes in below the ceiling.
Smallest cheque	C\$25K	Angel-sized. Larger cheques set the pace.
Seed target	C\$3.55M • Sep 2027	Or earlier if milestones and market conditions support it.

WHERE THE MONEY GOES		
Team	C\$720K	Founder/product, technical lead, one internal engineer, fractional QA and pilot delivery. Speer substitutes for a larger early FTE engineering team.
Product build	C\$400K	Mortgage discovery/design, core product build, hardening and limited integrations.
Advisory	C\$270K	C\$15K/month for 18 months, subject to confirmed scope and tax treatment.
Legal + security	C\$190K	Contracts, privacy design, launch security review and ongoing review.
Operations	C\$180K	Cloud, product tooling, administration and insurance.

Customer acquisition	C\$120K	Founder-led discovery, pilot recruitment, measured outcomes and reference development.
Bridge repayment	C\$30K	Existing principal allowance; confirm balance, due date and any interest.
Total scheduled spending	C\$1.91M	<i>Base case assumes C\$0 customer collections and C\$0 non-dilutive cash. Survival-case ending cash is ~C\$60K; target reserve is C\$330K.</i>

FIVE-YEAR MANAGEMENT TARGET

Metric	2027	2028	2029	2030	2031
Revenue	C\$715,000	C\$4,475,000	C\$16,250,000	C\$43,630,000	C\$94,700,000
Gross profit	C\$447,750	C\$3,197,000	C\$12,610,500	C\$35,517,000	C\$78,800,000
EBITDA	(C\$907,250)	C\$127,000	C\$5,460,500	C\$19,617,000	C\$46,250,000
Gross margin	62.6%	71.4%	77.6%	81.4%	83.2%
Payroll FTE	4	10	20	35	50
Decision Records	5,000	50,000	200,000	600,000	1,500,000

WHAT MAKES C\$94.7M

Decision Integrity Records	C\$37.5M	1.5M records × C\$25.
Core platform	C\$22.0M	1,100 paid firm-equivalents × C\$20K average ARR.
Enterprise / network	C\$12.0M	30 enterprise/network customers × C\$400K average ACV.
Supervision	C\$9.0M	150 supervisory customers × C\$60K average ARR.
Implementation / other	C\$7.2M	Paid onboarding, integrations, evidence work and related services.
API / white label	C\$7.0M	20 embedded/API customers × C\$350K average ACV.

MARKET + CAPITAL DISCIPLINE

TAM	C\$726.6M	Conservative current Canadian revenue pool: core firm software + known mortgage / real-estate / new-auto Decision Records.
SAM	C\$457.5M	Management budget-qualified estimate. Qualification rates still require sales validation.
2031 target / SAM	20.7%	High enough that network / embedded distribution is mandatory; direct SMB sales alone will not support it.

Known annual events	~3.70M	Mortgage originations + MLS residential sales + new light vehicles only.
Non-dilutive capital	C\$0 in base case	IRAP, SR&ED, Alberta Innovation Employment Grant, Mitacs, ElevateIP and Alberta Innovates are tracked separately and only booked after eligibility/award timing is documented.

WHAT THIS CASE STILL HAS TO PROVE

- C\$25 blended Decision Record price
- 1.5M paid Decision Records by 2031
- 30 enterprise/network customers at C\$400K average ACV
- 20 API/white-label customers at C\$350K average ACV
- At least 70% second-vertical architecture reuse

Management target case, not a forecast. The full pro forma remains the diligence model.

Five-year financial snapshot

2027–2031 management target case. Canadian dollars. Consumer subscription revenue excluded.

	2027	2028	2029	2030	2031	Where it comes from
MONEY						
Revenue	C\$715,000	C\$4,475,000	C\$16,250,000	C\$43,630,000	C\$94,700,000	Bottom-up from the Revenue Build in the full pro forma.
Gross profit	C\$447,750	C\$3,197,000	C\$12,610,500	C\$35,517,000	C\$78,800,000	Weighted gross profit across six revenue engines.
EBITDA	(C\$907,250)	C\$127,000	C\$5,460,500	C\$19,617,000	C\$46,250,000	Approximate operating breakeven in 2028.
Gross margin	62.6%	71.4%	77.6%	81.4%	83.2%	Improves as higher-margin platform, records and supervision become a larger share.
Payroll FTE	4	10	20	35	50	Internal payroll only. Speer and specialist engineering remain external capacity.
Decision Records	5,000	50,000	200,000	600,000	1,500,000	Paid completed records across eligible transactions.

2031 REVENUE MIX			
Revenue engine	2031 revenue	Share	What drives it
Core platform	C\$22,000,000	23.2%	1,100 paid firm-equivalents × C\$20K.
Enterprise / network	C\$12,000,000	12.7%	30 customers × C\$400K.
Decision Integrity Records	C\$37,500,000	39.6%	1.5M paid records × C\$25.
Supervision	C\$9,000,000	9.5%	150 supervisory customers × C\$60K.
API / white label	C\$7,000,000	7.4%	20 embedded/API customers × C\$350K.
Implementation / other	C\$7,200,000	7.6%	Paid onboarding, integrations and evidence work.

WHAT THE MODEL DOES NOT CLAIM

Consumer subscription revenue is excluded from the base case.

Non-dilutive capital is C\$0 in the base case.

The C\$94.7M is a management target case, not a forecast.

The C\$25 Decision Record price, enterprise ACV, API ACV and volume assumptions all require paid validation.

Sources & key assumptions

Published facts are separated from management assumptions.

Item	Current value	Type	Source / basis	Investor treatment
2031 revenue	C\$94.7M	Management target	Current 4orm pro forma	Target case, not forecast.
2031 EBITDA	C\$46.25M	Model output	Current 4orm pro forma	Depends on revenue and margin assumptions.
Decision Record price	C\$25	Management assumption	Validation ladder C\$15 / C\$25 / C\$39	Needs paid validation.
Paid Decision Records	1.5M	Management assumption	Current revenue build	Hardest volume assumption.
Core platform ARR	C\$20K	Management assumption	Current revenue build	Needs paid validation.
Enterprise ACV	C\$400K	Management assumption	Current revenue build	Requires network distribution.
API ACV	C\$350K	Management assumption	Current revenue build	Upside until first paid POC.
Pre-seed target	C\$2.05M	Financing term	Current 4orm pro forma	C\$80K reported raised.
18-month spend	C\$1.91M	Operating plan	Separate 18-month runway workbook	Base case excludes grants and customer collections.
Non-dilutive cash	C\$0	Base case	Programs tracked separately	Only book after award / eligibility evidence.
Canadian MLS sales	470,314	Published	CREA 2025	Included in known transaction pool.
New light vehicles	1,897,058	Published	Automotive News Canada 2025 year-end figure	Included in known transaction pool.
Mortgage originations	1.33M	Research estimate	Public 2025 Canadian estimate used in 4orm research	Keep direct archival source in data room.
