FOUNDATION

Capital already raised and working as the starting base.

Q4 2026

Add C\$170K to reach C\$250K total

OPENING CAPITAL

Complete the opening capital tranche and fund immediate discovery, legal and compliance, product insurance, talent and design-partner work.

Q1 2027, CLOSE 1

Add C\$1.0M to reach C\$1.25M total

BUILD AND PILOTS

Fund the mortgage build, pilot readiness, core product delivery and the operating team required to move from discovery into deployment.

Q1 2027, CLOSE 2

Add C\$1.25M to reach C\$2.5M total

PRE-SEED CLOSED

Complete the pre-seed and fully fund the planned execution runway, commercial launch and proof required for expansion.

C\$2.5M
PRE-SEED CLOSED, Q1 2027

The raise is not stretched through 2027. After close, the focus shifts to deployment, pilots and revenue proof.

What the C\$2.5M must buy.

The use of funds follows the current pre-seed pro forma. Only the capital sequence has changed: C\$80K raised, C\$170K to reach C\$250K, then C\$1.0M and C\$1.25M to close C\$2.5M in Q1 2027.

TOTAL

What each capital step unlocks.

Each tranche is tied to what it makes possible, not to a calendar alone.

C\$250K opening capital	Speer discovery and deposit; compliance and legal; insurance; talent; design-partner execution.
C\$1.25M cumulative	Mortgage product build; pilot readiness; first commercial delivery capacity; core operating team.
C\$2.5M closed	Full pre-seed execution runway; controlled pilots; first paying customers; repeatable mortgage delivery; expansion proof when earned.
