

4orm Finance — Investor Financial Summary

Current management target case. Canadian dollars. October 2026.

KEY NUMBERS		
Pre-seed target	C\$2.50M	Current new-money target; target close October–December 2026.
First close	C\$500K	Share subscription at C\$0.50/share; no named investor assumed committed.
2031 revenue target	C\$94.7M	Management target case, not a forecast.
2031 profit before tax	C\$56.13M	Latest 28 September operating model output; income tax not separately forecast.
2031 gross margin	82.0%	Latest 28 September model output after direct delivery costs.
Historical capital	C\$50K	Don historical investment; separate from the new C\$2.5M fundraising target.

THE ROUND		
Instrument	Shares + SAFE	C\$500K share subscription followed by C\$2.0M SAFE financing.
Share price	C\$0.50/share	Proposed first-tranche subscription price.
SAFE portion	C\$2.00M	Provisional; split across the November and December target closes.
SAFE post-money cap	C\$15.0M	Single-cap planning assumption for the full SAFE portion; not agreed.
SAFE discount	15%	Draft assumption. Set to 0% for a cap-only SAFE; signed terms control.
Seed target	C\$5.0M	Provisional. Open Q3–Q4 2027; target close December 2027.

WHERE THE MONEY GOES		
People and advisors	C\$1,005,000	Named fees, two salespeople and one client relations manager. No general advisory pool.
Speer — build + maintenance	C\$460,000	Discovery, mortgage build, hardening/integrations and maintenance allowance.
Reaching customers	C\$136,000	Discovery, demonstrations, pilots and customer marketing.
Running the company	C\$180,000	Hosting, tools, bookkeeping, insurance and administration.
Legal + security	C\$190,000	Contracts, privacy, independent security testing and ongoing advice.

Bridge repayment	C\$30,000	Principal allowance; confirm payable balance and date.
18-month core spending	C\$2,001,000	October 2026–March 2028 core scope, before expansion hires.
18 months + contingency	C\$2,301,150	<i>Includes 15% cost contingency. Leaves C\$198,850 reserve from the C\$2.5M raise.</i>

FIVE-YEAR MANAGEMENT TARGET

Metric	2027	2028	2029	2030	2031
Revenue	C\$715,000	C\$4,475,000	C\$16,250,000	C\$43,630,000	C\$94,700,000
Gross profit	C\$329,750	C\$2,981,000	C\$12,310,500	C\$34,881,000	C\$77,660,000
Profit before tax	(C\$917,250)	C\$866,625	C\$7,517,250	C\$24,230,050	C\$56,126,500
Gross margin	46.1%	66.6%	75.8%	79.9%	82.0%
Operating role units	5	7	11	17	27
Decision Records	5,000	50,000	200,000	600,000	1,500,000

WHAT MAKES C\$94.7M

Decision Integrity Records	C\$37.5M	1.5M records × C\$25.
Core platform	C\$22.0M	1,100 paid firm-equivalents × C\$20K average ARR.
Enterprise / network	C\$12.0M	30 enterprise/network customers × C\$400K average ACV.
Supervision	C\$9.0M	150 supervisory customers × C\$60K average ARR.
Implementation / other	C\$7.2M	Paid onboarding, integrations, evidence work and related services.
API / white label	C\$7.0M	20 embedded/API customers × C\$350K average ACV.

MARKET + CAPITAL DISCIPLINE

TAM	C\$726.6M	Conservative current Canadian revenue pool: core firm software + known mortgage / real-estate / new-auto Decision Records.
SAM	C\$457.5M	Management budget-qualified estimate. Qualification rates still require sales validation.
2031 target / SAM	20.7%	High enough that network / embedded distribution is mandatory; direct SMB sales alone will not support it.

Known annual events	~3.70M	Mortgage originations + MLS residential sales + new light vehicles only.
Non-dilutive capital	C\$0 in forecast	IRAP and SR&ED are pursued but not required to fund the core runway; book only after eligibility/award timing is documented.

WHAT THIS CASE STILL HAS TO PROVE

- C\$25 blended Decision Record price
- 1.5M paid Decision Records by 2031
- 30 enterprise/network customers at C\$400K average ACV
- 20 API/white-label customers at C\$350K average ACV
- At least 70% second-vertical architecture reuse

Management target case, not a forecast. The full pro forma remains the diligence model.

Five-year financial snapshot

2027–2031 management target case. Canadian dollars. Consumer subscription revenue excluded.

	2027	2028	2029	2030	2031	Where it comes from
MONEY						
Revenue	C\$715,000	C\$4,475,000	C\$16,250,000	C\$43,630,000	C\$94,700,000	Bottom-up from the Revenue Build in the full pro forma.
Gross profit	C\$329,750	C\$2,981,000	C\$12,310,500	C\$34,881,000	C\$77,660,000	After direct delivery costs by revenue stream.
Profit before tax	(C\$917,250)	C\$866,625	C\$7,517,250	C\$24,230,050	C\$56,126,500	Latest 28 September model; income tax not separately forecast.
Gross margin	46.1%	66.6%	75.8%	79.9%	82.0%	Improves as platform, records and supervision scale.
Operating role units	5	7	11	17	27	Includes full-time-equivalent operating contractors. Advisors and Speer are separate.
Decision Records	5,000	50,000	200,000	600,000	1,500,000	Paid completed records across eligible transactions.

2031 REVENUE MIX			
Revenue engine	2031 revenue	Share	What drives it
Core platform	C\$22,000,000	23.2%	1,100 paid firm-equivalents × C\$20K.
Enterprise / network	C\$12,000,000	12.7%	30 customers × C\$400K.
Decision Integrity Records	C\$37,500,000	39.6%	1.5M paid records × C\$25.
Supervision	C\$9,000,000	9.5%	150 supervisory customers × C\$60K.
API / white label	C\$7,000,000	7.4%	20 embedded/API customers × C\$350K.
Implementation / other	C\$7,200,000	7.6%	Paid onboarding, integrations and evidence work.

WHAT THE MODEL DOES NOT CLAIM

Consumer subscription revenue is excluded from the base case.

Non-dilutive capital is C\$0 in the forecast.

The C\$94.7M is a management target case, not a forecast.

Share, SAFE and seed terms are planning assumptions until signed documents control.

Sources & key assumptions

Published facts are separated from management assumptions.

Item	Current value	Type	Source / basis	Investor treatment
2031 revenue	C\$94.7M	Management target	28-Sep-2026 pre-seed model	Target case, not forecast.
2031 profit before tax	C\$56.13M	Model output	28-Sep-2026 pre-seed model	Income tax not separately forecast.
2031 gross margin	82.0%	Model output	28-Sep-2026 pre-seed model	After direct delivery costs.
Decision Record price	C\$25	Management assumption	Validation ladder C\$15 / C\$25 / C\$39	Needs paid validation.
Paid Decision Records	1.5M	Management assumption	Current revenue build	Hardest volume assumption.
Core platform ARR	C\$20K	Management assumption	Current revenue build	Needs paid validation.
Enterprise ACV	C\$400K	Management assumption	Current revenue build	Requires network distribution.
API ACV	C\$350K	Management assumption	Current revenue build	Upside until first paid POC.
Pre-seed target	C\$2.50M	Financing term	28-Sep-2026 capital structure	C\$500K shares + C\$2.0M SAFE.
First share tranche	C\$500K @ C\$0.50	Financing term	28-Sep-2026 capital structure	Target October 2026; no named commitment assumed.
SAFE cap / discount	C\$15M / 15% draft	Provisional term	28-Sep-2026 capital structure	Not agreed; signed SAFE controls.
Seed target	C\$5.0M	Management financing target	28-Sep-2026 seed model	Open Q3-Q4 2027; target close Dec 2027.
18-month core spend	C\$2.001M	Operating plan	28-Sep-2026 pre-seed model	Plus C\$300,150 contingency; C\$198,850 reserve.
Canadian MLS sales	470,314	Published	CREA 2025	Included in known transaction pool.
New light vehicles	1,897,058	Published	Automotive News Canada 2025 year-end figure	Included in known transaction pool.
Mortgage originations	1.33M	Research estimate	Public 2025 Canadian estimate used in 4orm research	Keep direct archival source in data room; source remains weaker than CREA/auto.
